[\[ix\].. There are many ideas about why his work went unpublished: though he carefully bound and preserved his manuscripts, he ordered that his heirs never publish the poems; or he didn't order it, but the family, for one reason or another, perpetuated the story that he had; that publishing was a lowly enterprise and was beneath him; that his work was so unorthodox \(some critics consider him a closet Catholic\) that he could not have both made the work public and maintained his ecclesiastical position. [xliv].. There's a third reading of the line I can't account for. Daly states that "for the Puritans... the sun was frequently used as an admittedly imperfect figure for God...." Whoa. Who bowled *God*? Surely this wasn't Taylor's intention; it's way out of line. Puritan doctrine didn't allow for doubt or questions of that nature. There was no *room* for doubt in Puritan theology. It didn't exist. But the reading is available, even if after Taylor's fact, if Daly is right. I can see no indication, however, in the body of Taylor's work, that he entertained notions of this nature. My guess is, and it sounds snottier than it's intended, that Taylor hadn't read Daly. I can't account for that kind of reading any other way. I can't believe Taylor was an apostate.
